- counting on from the larger of the numbers in order to add
- checking work
- Used base ten blocks for addition with and without regrouping
- Math practice on IXL - diagnostic and recommended skills

Preparing for conferences

*Portfolio - Students reviewed and reflected on their classwork while organizing portfolios. They began preparing for Student-Led conferences by identifying work they feel they are proud of and that represents growth. We will continue to work on this leading up to Student-Led conferences.
